Timber

## **BLAZERS**

*These new fire briquettes are made of 100% compressed wood chippings and contain no additives*

## **BLAZERS**

### **ENVIRONMENTALLY FRIENDLY**

- less CO<sup>2</sup> emissions due to constantly burning at a high temperature
- use of pure wood chippings free of any additives
- the remaining ash can be used as a nutritious fertiliser

## **BLAZERS**

### **HIGH CALORIFIC VALUE**

- 5.5 kWh/kg
- 1000 kg BLAZERS are equivalent to approx. 4-5 m<sup>3</sup> of seasoned hardwood
- almost no heating power loss while storing (only 7% remaining humidity compared to 20% in conventional timber)
- extremely long-lasting blaze

## **BLAZERS**

### **CLEAN AND SPACE SAVING**

- no resin, no insects
- due to compression little space needed for storage

## **BLAZERS**

### **SAFE**

- no dangerous sparks and spitting due to good combustion
- less smoke because of lower humidity
- ideal for open fireplaces and stoves

**70%**  
Minimum
