Zest Outdoor Living – The Natural Choice

Enjoying our outdoor spaces is ever more important for wellbeing and happiness. Our gardens are sanctuaries, places to play and entertain our friends and families. Places to relax and be at one with nature. Places to grow. Places where natural, sustainable materials like wood reconnect us with what is important and valuable.

At Zest Outdoor Living, we understand that gardens, patios, and balconies are special places, and we craft our garden

furniture, garden structures, outdoor entertaining and grow your own products to fulfil that potential and add joy to life in the outdoors.

A Natural Passion for Wood

Zest is a five-generation British family business and our knowledge and love of crafting the natural beauty of timber has been honed to perfection for almost 40 years.

Our award-winning range of garden structures, furniture and grow your own products, all made from carefully

selected slow grown softwood is the result of years of experience and dedication, seasoned with continual investment in contemporary design and innovation.

Expertly sourcing timber from responsibly managed PEFC certified forests in Europe, the company utilises

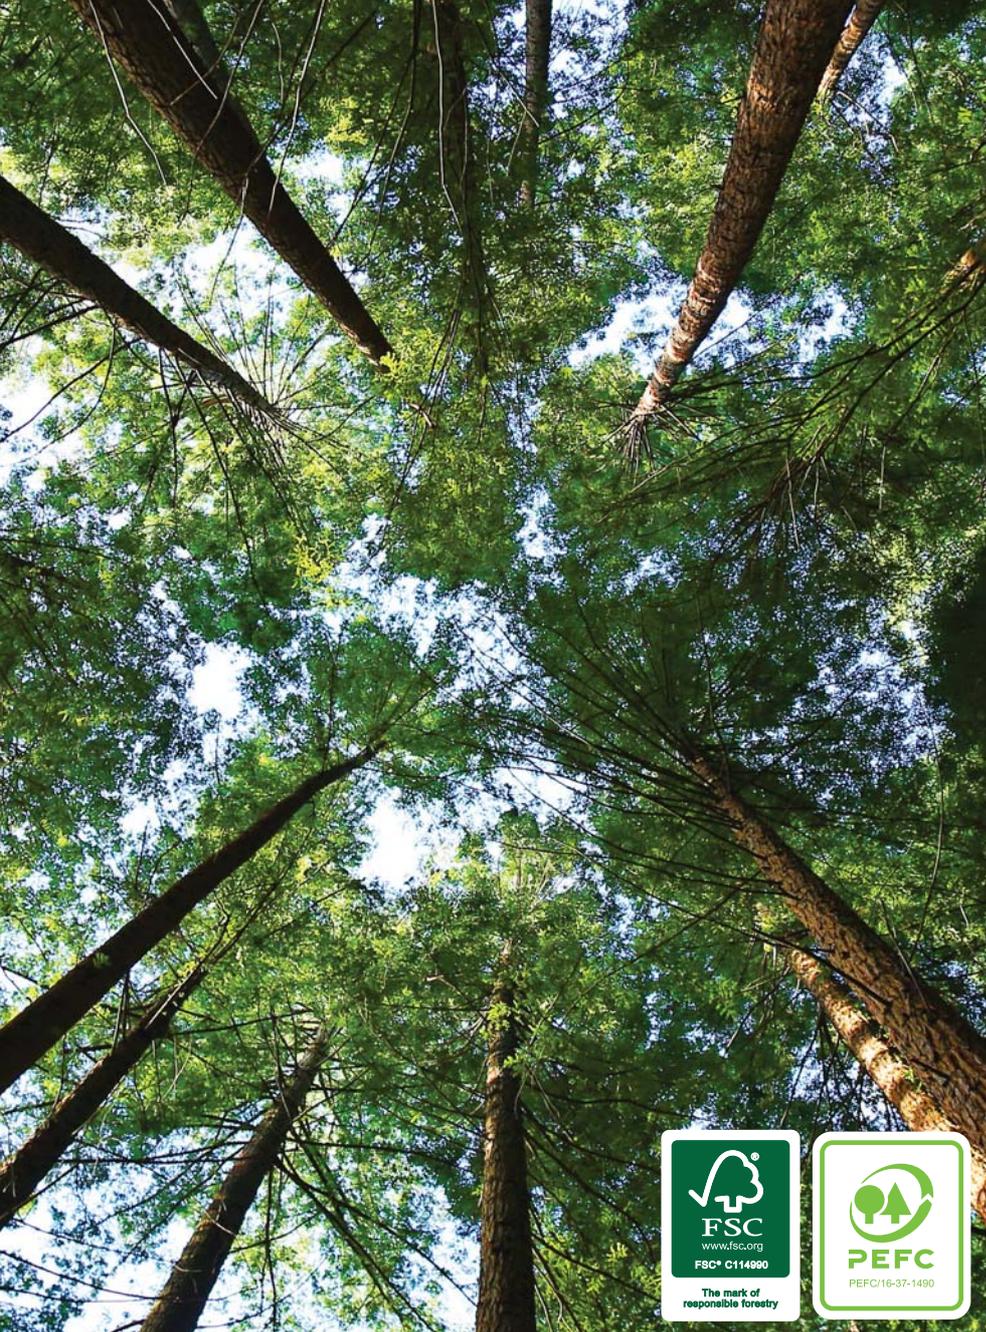

the skills of its design hub in Wales to create on trend concepts. Many of the products are handcrafted by people who understand the natural attributes of this beautiful and sustainable material.

Award-Winning Style & Craftsmanship

Our Zest range includes award-winners of every kind, from grow your own products to garden furniture. Our stunning Terraza Outdoor Kitchen Range won best new product accolades at both the Solex Exhibition and the GIMA Awards, following hard on the heels of our Garden Bar and Two Stool set, a triple winner in 2023.

If you are a GYO enthusiast, check out the Zest Tall Botanical Greenhouse, a GIMA Awards finalist in 2024 and the Compact Botanical Greenhouse, ideal when space is at a premium.

Our Environmental Commitment

Sustainability is fundamental to Zest's brand and we aim to meet the highest environmental standards. Zest is proud to hold both a Forest Stewardship Council® certification (FSC®- C114990) and a Programme for the Endorsement of Forest certification (PEFC/16-37-1490). Zest uses its UK timber waste in its biomass boilers and uses solar power.

The Natural Beauty of Wood

Timber is a natural material, so every piece is unique with its own distinctive features and characteristics. Natural splits and cracks are part of the maturing process and do not compromise durability. Knots embedded in the wood tell the story of the tree.

Timber products need a little time to settle into a new environment. Changes in temperature and humidity naturally cause expansion and contraction of the wood, and you may initially notice variations in colour and shading but these will even out in sunlight.

Splits, cracks and knots are natural characteristics of wood.

Replanting

Together with supply partners in Eastern Europe, Zest is dedicated to re-planting schemes and nurturing woodland habitat. It is collaborating on a 10,000-acre replanting scheme in Poland and works with the North Wales Wildlife Trust.

Pressure Treated

Most Zest products are pressure-treated to maximise their life and guarantee against rot for ten years. Pressure treatment can cause a green-spotting effect on new timber, but this will gradually fade and is in no way detrimental.

Important information regarding further treatment

Pressure Treated products should not have any further treatment applied for the first six months. For more information visit Zest website for timber care information: www.zestoutdoorliving.co.uk/timbercare

Product Key

Our timber products are all pressure or dip treated and many arrive flat packed with clear assembly instructions and selected products arrive ready built. Our furniture, decorative products and selected lines are guaranteed against rot for 10 years. The key below will indicate if a product has special features:

Pressure Treated
Made with quality Pressure Treated timber

Guaranteed
Backed by a 10 Year Guarantee Against Rot

Dip Treated
Timber has been dipped rather than Pressure Treated

Home Delivery

FREYA RANGE

The Freya seats present a new design aesthetic and incorporate alternate width wooden slats cleverly spaced to make a very comfortable ergonomic seating shape. The extended high back improves comfort and support but also gives a sense of drama and presence to the outdoor dining experience. All details of the product have been considered, particularly the width and length of the arm rests, which provide maximum arm support as well as allowing space to rest a glass.

Zest's Botanical Greenhouses, are both stylish and space saving.

The Compact Botanical Greenhouse, is a Perspex glazed, small space greenhouse, ideal for nurturing plants. It's made from slow grown softwood sourced from responsibly managed PEFC forests. The greenhouse has hinged doors and opening roof with dual height stays for optimum ventilation. It comes complete with door catches and strategically placed drainage holes in the roof frame.

The space saving Tall Botanical Greenhouse combines stunning looks with all the functionality of a greenhouse. Fully glazed with Perspex, the Botanical boasts two fully adjustable roof panels, with securing latches, allowing for optimal temperature control for all types of plants. It has removable shelves which can also be reconfigured to a half width to allow for taller plants.
