# Zest Outdoor Living – The Natural Choice

Enjoying our outdoor spaces and being at one with nature are ever more important for wellbeing and happiness. Our gardens are sanctuaries, places to play and entertain our friends and families. Places to relax and places to grow. Places where natural, sustainable materials like wood reconnect us with what is important and valuable.

At Zest Outdoor Living, we understand that gardens, patios, and balconies are special places, and we craft our garden furniture, garden structures, and grow your own products to fulfil that potential and add joy to life outdoors.

All our products are designed at our innovation centre in Wales, and are made to exacting standards of craftsmanship, using responsibly sourced PEFC certified (PEFC/16-37-1490) slow grown softwood, expertly selected for its natural beauty. Knots embedded in the timber and naturally occurring cracks, splits, and shading tell the story of the tree from which it came.

# Enjoy Award-Winning Style & Craftsmanship

Our Zest range includes award-winners of every kind, from grow your own (GYO) products to garden furniture. Our stunning Garden Bar and Two Stool set - with its fold out design - is a triple industry award winner winning at Glee, Solex and the GIMA awards dinner in October 2023. And as for the Garden Pizza Oven Table, it is a classic for the times we live in and a finalist at Glee.

If you are a GYO enthusiast, check out our winning Tall Vertical Herb Stand and Small Space Cold Frame, and if you make your own compost, Zest's Eco Hive Composter, shaped like a traditional beehive, is an attractive and practical way to enhance your gardening experience.

## A Natural Passion for Wood

**Zest is a five-generation British family business and our knowledge and love of crafting the natural beauty of timber has been honed to perfection over 35 years.** Our award-winning range of garden structures, furniture and grow your own products, all made from carefully selected slow

grown softwood is the result of years of experience and dedication, seasoned with continual investment in contemporary design and innovation.

Expertly sourcing timber from responsibly managed PEFC certified

(PEFC/16-37-1490) forests in Europe, the company utilises the skills of its design hub in Wales to create on trend concepts. Many of the products are handcrafted by people who understand the natural attributes of this beautiful and sustainable material.

## Home Delivery

As part of our service to our retailers, we provide inclusive home delivery to mainland UK and Northern Ireland for products highlighted with the  icon. Deliveries to Northern Ireland take a little longer.

# Our Environmental Promise

Zest is extremely proud to hold both a Forest Stewardship Council® certification (FSC®- C114990) and also a Programme for the Endorsement of Forest certification (PEFC/16-37-1490). Membership to these recognised global authorities demonstrates Zest's unwavering commitment to the environment by using sustainable timber from responsible sources.

Zest's products are certified to either FSC® or PEFC standards. The FSC® logo indicates which products are FSC® certified throughout the brochure.

Our commitment to sustainability is fundamental to Zest's brand ethos and everything it does aims to meet the highest environmental standards. Zest uses recycled timber waste as woodchip for biomass boilers and has solar panels fitted.

## Replanting

Together with its supply partners in Eastern Europe, Zest is dedicated to re-planting schemes and nurturing woodland habitat. It is collaborating on a 10,000-acre replanting scheme in Poland and working with the North Wales Wildlife Trust on several initiatives.

PEFC is an international, non-profit organisation supporting & promoting sustainable forest management and provides an environmental assurance mechanism to purchasers.

## Pressure Treated

Most Zest products are pressure-treated which is a process to maximise the life of the product. Pressure treatment sometimes causes a green-spotting effect on the surface of new timber as the natural salts leave the wood. Rest assured, this will gradually fade over time and is in no way detrimental.

It's also good to know that Zest pressure treated furniture, decorative structures and European fencing are guaranteed against rot for ten years.

### Important information regarding further treatment

Pressure Treated products should not have any further treatment applied for the first six months.

Visit Zest website for timber care information:  
[www.zestoutdoorliving.co.uk/timbercare](http://www.zestoutdoorliving.co.uk/timbercare)

## The Natural Beauty of Wood

Timber is a natural material and sits beautifully within an outdoor setting. It also means that every piece of timber is unique and has its own distinctive features and characteristics. Changes in temperature and humidity naturally cause expansion and contraction, so you can happily give your Zest product time to settle into its new environment.

You may also notice variations in colour and shading but these will even out once exposed to the sun.

### Splits, cracks & knots are natural characteristics of wood.

Splits or cracks are part of the maturing process and will not affect its strength or durability.

Knots embedded in the wood are natural and tell the story of the tree and how it has grown.

## Sizes, Measurements & Continuous Improvement

All sizes and measurements quoted are approximate and measured to maximum exterior dimensions including roof overhang unless otherwise stated.

Product designs and specifications can vary as products evolve as part of Zest's continuous improvement commitment.

# Garden Furniture

Dining Sets, Benches, Picnic Tables,  
Side Tables & Swing Seats

## Freya Range

The Freya seats present a new design aesthetic and incorporate alternate width wooden slats cleverly spaced to make a very comfortable ergonomic seating shape. The extended high back improves comfort and support but also gives a sense of drama and presence to the outdoor dining experience. All details of the product have been considered, particularly the width and length of the arm rests, which provide maximum arm support as well as allowing space to rest a glass.

# Zest's New Botanical Greenhouses, are both stylish and space saving.

The Compact Botanical Greenhouse, is a Perspex glazed, small space greenhouse, ideal for nurturing plants. It's made from slow grown softwood sourced from responsibly managed PEFC forests. The greenhouse has hinged doors and opening roof with dual height stays for optimum ventilation. It comes complete with door catches and strategically placed drainage holes in the roof frame.

The space saving Tall Botanical Greenhouse combines stunning looks with all the functionality of a greenhouse. Fully glazed with Perspex, the Botanical boasts two fully adjustable roof panels, with securing latches, allowing for optimal temperature control for all types of plants. It has removable shelves which can also be reconfigured to a half width to allow for taller plants.

Every effort has been made to provide up to date factual information, but as our policy is one of continual improvement we reserve the right to modify or change specifications as necessary. No liability will be accepted for errors and omissions. All guarantees are conditional and if you are in any doubt as to the terms and conditions, please feel free to contact us. All sizes where quoted are approximate and in metric. Products have been measured to maximum exterior dimensions including roof overhang unless otherwise stated. Some specifications may vary due to availability and product improvements. Colour has been applied to some products for photographic purposes only. We take great care in the photographic accuracy of products shown in our brochure, however due to variables in both photographic and printed processes and the natural characteristics of wood, colours may not exactly match the actual products. All orders will incur a delivery charge (UK Mainland only). For full information on Zest products please visit the website.
